

DIGITAL GOVERNMENT PLATFORMS / GOVERNMENT AS A PLATFORM

Moderator:

David Sherwood: Executive Director Information Transformation
Ministry of Finance, BC Government

Digital Government Platforms

Business
Model
Transformation

Rarest and most unpredictable: think Uber

Service
Transformation

Same business model, improved services: think 9-5 banking v's mobile banking

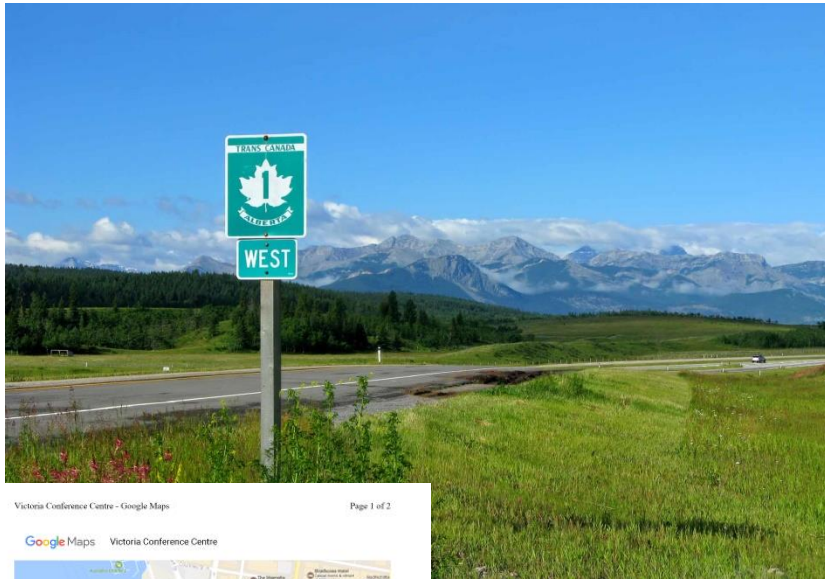

IT Transformation

Makes the organization more efficient and effective: think virtualization

Digital Government Platforms

The ancient Greeks said government has only one purpose, to improve the lives of citizens.

Digital Government Platforms

Being a platform provider means government stripped down to the essentials. A platform provider builds essential infrastructure, creates core applications that demonstrate the power of the platform and inspire outside developers to push the platform even further, and enforces “rules of the road” that ensure that applications work well together.

Government as a Platform
