

A partner in achieving project outcomes

THE PROJECT MANAGEMENT OFFICE

RAJ EASWARAN, SR. PROJECT MANAGER, MINISTRY OF HEALTH

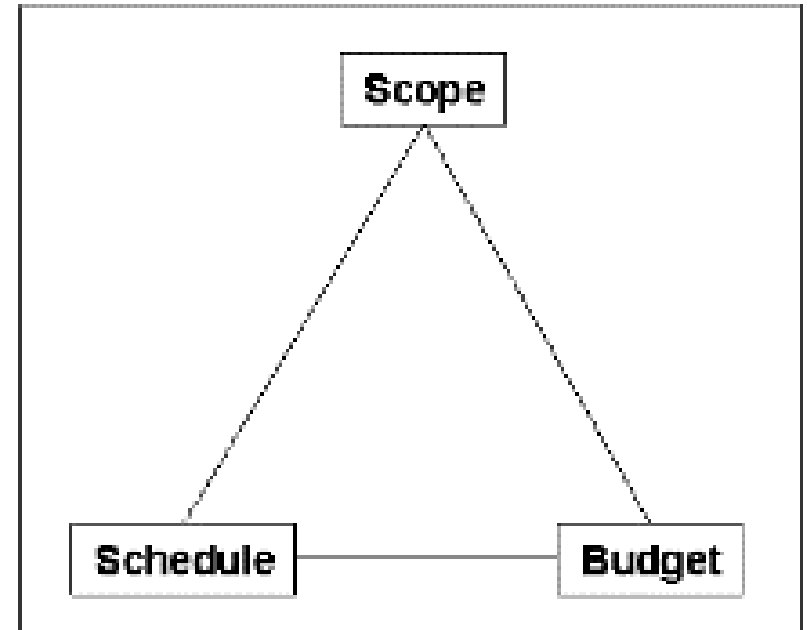

PETER F. DRUCKER

Management is
about doing things
right; leadership is
doing the right
things

The traditional PMO

- ▶ Process driven
- ▶ Focussed on control of triple constraints
- ▶ Reporting
- ▶ Tools and templates
- ▶ Established methodology
- ▶ Established governance

Focus on Output vs Outcomes!

Realizing Benefits

In 2016 – PMI issued 7 white papers on benefits realization

Assessing business
needs

Organizational
change
management

Delivering
outcomes mapped
to identified needs

THE NEXT
GENERATION PMO
WILL HAVE
PORTFOLIO
MANAGEMENT AT ITS
CORE

Portfolio management

* The next generation PMO by Lindsay Scott

- ▶ Portfolio management becomes the hub for all project work – it drives all non-operational activities.
- ▶ It oversees everything from ideas to planning through to the “attainment of benefits”
- ▶ Crucially it also integrates other functions of the organization so change takes place with less friction.
- ▶ **If portfolio management is the function – the PMO is the entity in which it sits.**

Andy Jordan 2017 ©

The new PMO

*Is a trusted
partner to
project teams
and business
areas*

Embraces change

Promotes transparency

Agnostic to methodology

Supports projects by identifying value and benefits

Is strategic
