

# Face Recognition in Public Impact on Disadvantaged Groups

Dr A. A. Adams

Reboot Privacy Conference

# Overview

- Privacy as an Enabling Right
- Disadvantaged Groups and Face Recognition
- Shameless Plug: RRING

# Privacy as an Enabling Right

- The Right to be Let Alone
- Facebook's "Real Name" Policy and SF Pride
- Separation of Identity
- Freedom of Speech; Anonymity/Pseudonymity of Speech
- Freedom to Protest: UK Police, Disability Benefits and Chilling Effects

# Disadvantaged Groups and Face Recognition

- Lack of Recognition and Loss of Identity  
Dark skin, narrow eyes, disability, non-standard face structure...
- Counting and Being Counted
- False Recognition and Consequences
- Socio-economic realities and biometrics (Aadhar et al.)  
(privacy is for the rich)

# Shameless Plug: RRING

- Horizon 2020 RRING Project  
Responsible Research and Innovation Networking Globally  
<https://www.rring.eu/>
- Current case study:  
Competitive Advantages of RRING in AI biometric research and innovation
